Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-9,11-17,20 and 22 are rejected under 35 U.S.C. 102(e) as being anticipated by Myler, et al.-5474563.

Myler discloses a stent delivery system having a delivery means consisting of an outer sheath 60 which surrounds the stent in a reduced configuration, and deployment means in the form of a core 52,56 having two enlarged rings 62,66 which are larger in diameter than the inner diameter of the stent (since elements 216 which engage the rings are part of the stent). A handle, one part of which is the proximal end of 60 and the other part of which is attached to the proximal end of 52 and/or 56.

Claims 1-9,11-17,20 and 22 are rejected under 35 U.S.C. 102(e) as being anticipated by Braunschweiler, et al.-5484444.

Braunschweiler discloses a stent delivery system having a delivery means consisting of an outer sheath 2 which surrounds the stent in a reduced configuration, and deployment means in the form of a core 3,13 having enlarged rings 8,11 and 14 which are larger in diameter than the inner diameter of the stent. A handle, one part of which is 6 and the other part of which is 5.

Response to Arguments

Applicant's arguments with respect to all of the pending have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
